# Security instances

MFA for AuthZ & AuthN

Azure AD

Federated Contacts

Groups SelfService

Block specific words for Groups

Conditional Access for AuthZ

Azure Information Protection (Unified Labeling)

Data Loss Prevention as rule set

#T--Day

LIVE DEMO

## Recommendations

Enable MFA!

Identify use cases

Create Conditional Access policies

Specify governance rule sets

Configure Office 365 group creation policies

Advanced:

Create Unified Labeling  
and DLP rules
