# Teams Management (1/3)

- Teams devices from one location, now including Microsoft Teams Rooms
- Advisor for Teams is now in GA
- App configuration in TAC
- Support for sensitivity labels
- Filtering in Teams summary table

The screenshot shows the Microsoft Teams admin center interface. The left sidebar contains navigation options such as Dashboard, Teams, Locations, Users, Devices, Teams Apps, Manage apps, Permission policies, Setup policies, Messaging policies, Voice, Meetings, Policy packages, Planning, Analytics & Reports, Other settings, and Provide feedback. The main content area is titled 'Microsoft Teams admin center' and 'Apps \ Praise'. It displays the 'Praise' app settings page, which includes a 'Settings' tab and a section for 'App settings'. The 'App settings' section allows users to select badge sets to include in their organization's Praise app. There are three toggle switches: 'Default badges' (On), 'EDU Social & Emotional Learning badges' (On), and 'Custom badges' (On). Below the toggles are 'Save' and 'Cancel' buttons. At the bottom, there is a table with one item, 'Friendship', and a 'Submit' button.
